

[REDACTED]

In December 2017, the National Defense Authorization Act for Fiscal Year 2018 was signed and reinstated registration for all unmanned aircraft systems.

This is the section (Section 1092(d)) that reinstated registration:

(d) RESTORATION OF RULES FOR REGISTRATION AND MARKING OF UNMANNED AIRCRAFT.—The rules adopted by the Administrator of the Federal Aviation Administration in the matter of registration and marking requirements for small unmanned aircraft (FAA-2015-7396; published on December 16, 2015) that were vacated by the United States Court of Appeals for the District of Columbia Circuit in Taylor v. Huerta (No. 15-1495; decided on May 19, 2017) shall be restored to effect on the date of enactment of this Act.

https://www.faa.gov/uas/getting_started/

Here is where you register: <https://faadronezone.faa.gov/#/>
Keep in mind that the FAA website often refers to all unmanned aircraft systems (even model aircraft) as drones. Please let me know if you have any questions.
